

Olga Panina

Data Analyst

Vancouver, BC, Canada · hello@olgapanina.com · olgapanina.com · linkedin.com/in/olga-panina-84433a83 · github.com/OldOwl

ABOUT

Data analyst returning to tech after 8+ years in QA, web development, and editorial leadership, including two team-lead roles at Moscow IT companies. Master's in Computer Systems Networking (MIREA, 2011). Open to junior data analyst roles.

STACK

Python (pandas, numpy) · SQL · Tableau · Statistics · Excel

EXPERIENCE

Freelance Photographer & Visual Artist · Self-employed

Jan 2020 to Present · Vancouver, Canada

- Portrait and event photography on commission
- Post-production photo retouching for clients
- Promotional video for a children's centre
- 23 original oil paintings since 2020, two in private collections

Math Tutor · Self-employed

Jan 2018 to Dec 2025 · Canada

- One-on-one mathematics tutoring across two curriculum systems
- Elementary school students under the Canadian curriculum
- All grade levels under the Russian curriculum, including algebra, geometry, and exam preparation
- Translated abstract concepts into approachable, age-appropriate explanations

Test Manager & QA Engineer · Quality Lab

Oct 2016 to Nov 2017 · Moscow, Russia

- Promoted to Test Manager after 7 months as QA Engineer
- Led a 5-person QA team (2 manual testers, 3 automation engineers) on Winline, a Russian high-traffic sports platform with web and mobile products
- Maintained Selenium + Java regression suite as senior reviewer
- Reported ~20 bugs per week personally alongside team output
- Authored test plans, check-lists, and test cases

Web Developer (Part-time) · Digital October Center

Apr 2013 to Mar 2015 · Moscow, Russia

- Added pages, banners, and email newsletters on two of the company's high-traffic websites
- Stack: HTML, CSS, Bootstrap, JavaScript basics
- Held in parallel with Chief Editor role at the same company

Chief Editor & Editor / Tester · Digital October Center

Oct 2009 to Nov 2013 · Moscow, Russia

- Promoted to Chief Editor after 1 year; led a 4-person editorial team for 3+ years
- Catalogued and tagged radio and TV broadcast clips with metadata
- Generated commercial broadcast reports sold to advertising clients
- Tested new features on internal software; cross-browser testing of the clip-distribution platform
- Held in parallel with Support Manager role at sister company Undev

Support Manager & QA · Undev (IT division of Digital October)

Apr 2009 to Oct 2013 · Moscow, Russia

- VPN service product team
- User support via email, forum, and ticketing system
- Tested all new VPN product features before release
- Generated regular support and testing reports; escalated technical issues to engineering
